WP.21.g.42/62

"Timeo Danaos Donaque ferentes."

THE upright and ſteady friends to the RIPON bill, are THUS called upon, to caution all perſons, who by their ſignatures or otherwiſe have ſanctioned that meaſure, to be upon their guard, and avoid giving ANY countenance to the propoſals made by the MAYOR for lighting the town, as they fall infinitely ſhort of the objects embraced by the propoſed bill, and are in themſelves wholly uncertain in their duration.

WILL the propoſers, give ſtability to their beneficence, by conſenting that a clauſe ſhall be inſerted in the propoſed bill, binding them for EVER to fulfil their engagements, and thereby to enable the PROMOTERS of the bill, to reduce their ONE SHILLING rate to SIXPENCE only, in which the repairs of the highways ſhall be included?

RIPON, 18th January, 1792.
